Accounting Policies

Each class of land and improvements, and buildings is revalued to their estimated fair value on a rolling three year cycle, or more frequently if there is evidence that indicates the carrying value of these may differ significantly from their fair value.

Critical accounting estimates and judgements

At 31 December 2021 key land and improvements and buildings were revalued in line with policy. As at 30 June 2022 the Directors believe there are no indicators that would suggest that the carrying value of land and buildings differs materially from their fair value and as a consequence there is no need to revalue those assets at 30 June 2022.

9. Trade and other Receivables

| | JUNE 2022 UNAUDITED (\$000'S) | JUNE 2021 UNAUDITED (\$000'S) | DECEMBER 2021 AUDITED (\$000'S) |

| Related party receivables | 28,357 | 25,427 | - |
| Total | 79,070 | 81,860 | 17,072 |

Related party receivables represent temporary advances to EastPack Entity Trust grower pools. These advances will be fully repaid by December 2022.

Sundry receivables includes \$36.4m (June 2021 - \$41.6m) of income for post harvest operations.

Critical accounting estimates and judgements

The Group has reveiwed trade and other receivables for any debtor impairment, credit risk, or any other such risks that may result in non-payment. The Group has not identified any circumstances where further provisioning or impairment of financial instruments is required.

| Closing balance | 178 | 202 | 4,096 |

Accounting Policy

Biological assets represent the value of developing the fruit due to be harvested in the following year and are measured at fair value.

Critical accounting estimates and judgements

The valuation of biological assets uses estimates of market returns to determine value.

11. Inventories

| | JUNE 2022 UNAUDITED (\$000'S) | JUNE 2021 UNAUDITED (\$000'S) | DECEMBER 2021 AUDITED (\$000'S) |

| Total | 5,226 | 2,142 | 2,316 |

Packaging and other inventory is subject to retention of title clauses

Critical accounting estimates and judgements

The Group has reviewed inventory for any impairment risks and whether additional provisioning or write-offs are required. The Group considers all inventory will be able to be used in the normal course of business.

12. Commitments

As at 30 June 2022 the Group was committed to incur \$31.5m (June 2021 – \$45m) capital expenditure for the expansion of coolstore capacity, extension to packhouses, upgrade of refrigeration equipment and the installation of a new grader and grader technology (Dec 2021 – \$34.9m).

13. Transactions with related parties

EastPack Entity Trust is a related party that acts as an administrator of revenues and expenses for the sale of kiwifruit on behalf of growers. EastPack Limited received \$133.5m (June 2021 – \$121.9m) for the provision of services to EastPack Entity Trust.

14. Determination of fair values of assets and liabilities

Fair value measurement for financial assets, non-financial assets and liabilities

The fair value of cash and cash equivalents, trade and other receivables, related party advances, and trade and other payables approximates their carrying value due to their short term nature.

Fair value measurement

The table below analyses those financial instruments carried at fair value. The different levels of the fair value hierarchy have been defined below.

| Level 1 | Quoted prices (unadjusted) in active markets for identified assets or liabilities that the entity can access at the measurement date. |
|---------|--|
| Level 2 | Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. |
| Level 3 | Unobservable inputs for the asset or liability that have to be developed to reflect the assumptions that a market participant would use when determining an appropriate price. |

| | LEVEL 1 (\$000'S) | LEVEL 2 (\$000'S) | LEVEL 3 (\$000'S) |
|-------------------------------------|----------------------|----------------------|----------------------|
| 2022 | | | |
| Deriviative financial instruments | - | 3,088 | - |
| Unlisted equity shares | - | 1,480 | - |
| Land and improvements and buildings | - | - | 205,855 |
| Total | - | 4,568 | 205,855 |

The fair value measurement for land and buildings has been categorised as Level 3, as the inputs used as part of the valuation techniques are based on unobservable inputs. There were no transfers into or out of Level 3 of the fair value hierarchy during the reporting period.

a) Land and Buildings

The fair value of land and buildings is determined using valuations by an independent valuer as set out in Note 8. In conducting the valuations, the valuer considered 3 different approaches to arrive at the fair value of the land and improvements and buildings. A weighted average of the 3 valuation methods is applied to derive the final valuation, with greater weighting applied to the income capitalisation approach and equal weighting applied to the discounted cash flow approach and market approach. The information below relates to the valuations undertaken at 31 December 2021.

The following shows the significant unobservable inputs used in the valuations and the inter-relationship between the key unobservable inputs and fair value measurement.

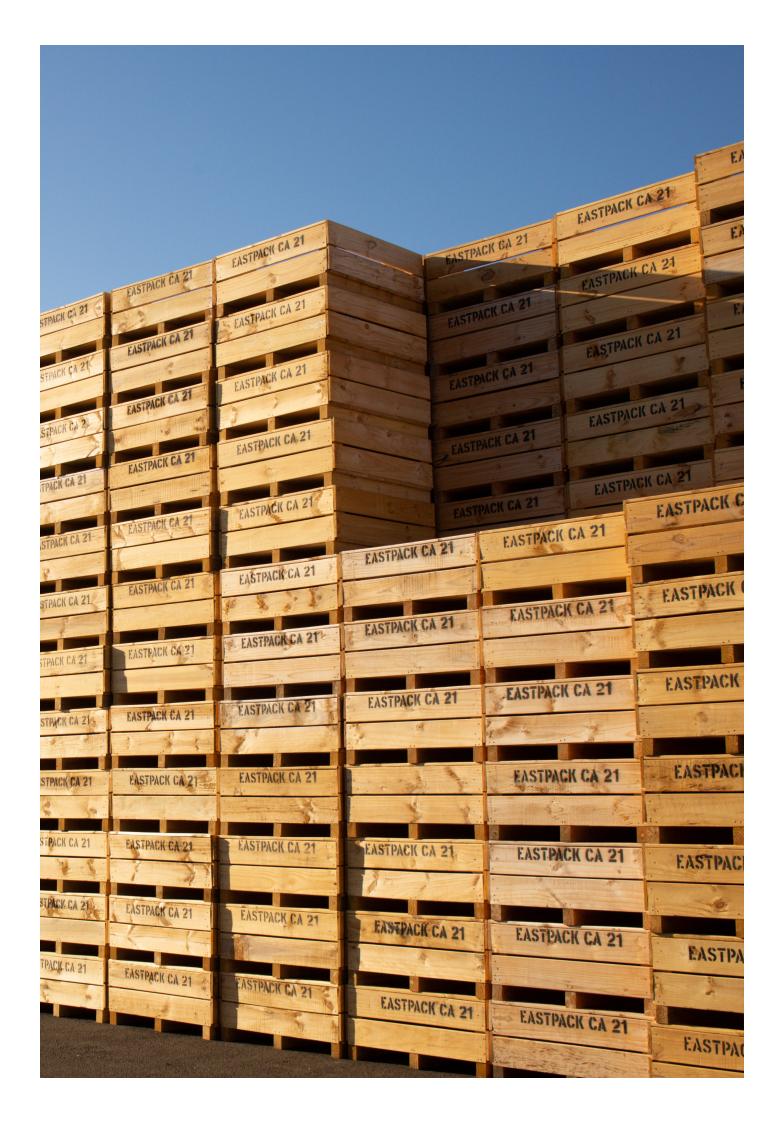

| Key unobservable inputs | Inter-relationship between key unobservable inputs and fair value measurement |
|-------------------------------|---|
| Current market rental | Higher market rental results in increased fair value. Lower market rental results in a decreased fair value. |
| Discount rate | Higher discount rate results in decreased fair value. Lower discount rate results in an increased fair value. |
| Terminal capitalisation rate | Higher capitalisation rate results in decreased fair value. Lower capitalisation rate results in a increased fair value. |
| Current market rental | Higher market rental results in increased fair value. Lower market rental results in a decreased fair value. |
| Capitalisation rate of return | Higher capitalisation rate results in decreased fair value. Lower capitalisation rate results in a increased fair value. |
| Current market sales | Higher market sales prices results in increased fair value. Lower market sales prices results in a decreased fair value |

b) Derivative Financial Instruments

Derivatives are initially recognised at fair value at the date a derivative is entered into, and subsequently re-measured to their fair value at each balance date. The fair value is determined based on market rates and quotes provided by Bank of New Zealand.

15. Significant events after balance date

A serious frost event occurred in October 2022 with significant damage to some kiwifruit orchards. There may be a significant impact on EastPack's 2023 volumes, and EastPack are currently working with their growers to ascertain the extent of the damage. The financial impact of any reduced volume will form part of the financial statements for the year ended 31 December 2023.
